## Why Choose Us?

### The Music:

We get our music from a place called Prime Cuts. Prime cuts supplies many radio stations with music. We get hits weeks in advance of them becoming hits! All clean radio edits, all the new hits, all the cool hits of the past all available for your dance.

### Sound:

So many times schools are shorted on sound. Especially larger schools. For crowds of 800 or more large sound systems are needed. Our sound systems will rock your school dance with crystal clear quality.

### Energy:

We mix music to build energy over the course of the night. School dances should be fun and memorable. We make them magical as well.

From formals to more casual dances we are the right choice for your dance!

### Interaction!

Students will go crazy over our interactive way of throwing out our 22" glow necklaces to the crowd. Using the mic we can get your students dancing, waving their hands in the air, chanting and singing along! It's awesome to see so many hands in the air or to hear the entire crowd sing along.

### VIDEO

For an additional fee we can bring along our GIANT 15 foot video screen. Using the screen we can project music videos to the crowd. We also bring along our "Crowd Cam" and project live images of the students onto the screen! The screen will also project spinning logos and ambient images! It's a great effect. That can also help with large crowds allowing people in the back to be able to see the king and queen crowning on the video screen!

We know it's a big responsibility hiring the DJ for your school event. We know you want the best! Be the next school to discover THE BEST! You will be amazed. Just listen to these real quotes from School advisors and students who have hired us.
